

ŠTO NAM DONOSI UREDBA O UMJETNOJ INTELIGENCIJI?

By now, most of us will have met with
artificial intelligence of some kind.

STEP 1

A high-risk AI system is developed.

STEP 2

It needs to undergo the conformity assessment and comply with AI requirements.*

*For some systems a notified body is involved too.

STEP 3

Registration of stand-alone AI systems in an EU database.

STEP 4

A declaration of conformity needs to be signed and the AI system should bear the CE marking.

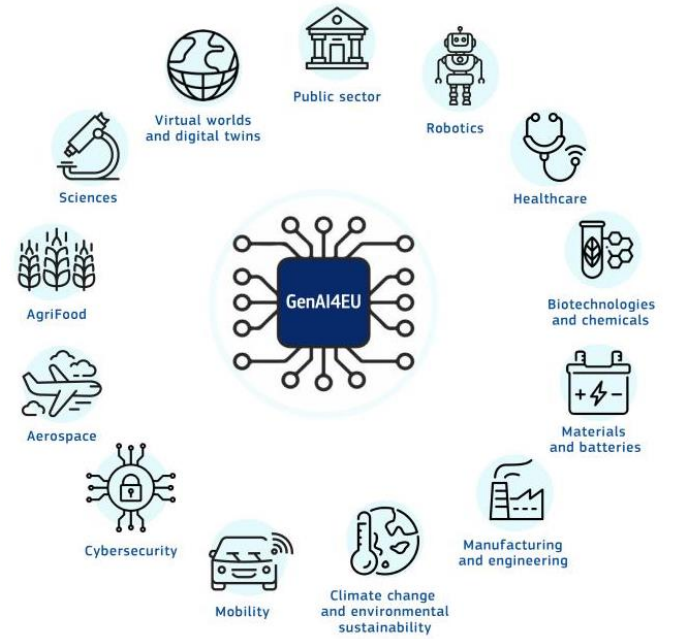

The system can be placed on the market.

If substantial changes happen in the AI system's lifecycle

GO BACK TO STEP 2
